Summary

Seasoned Software Developer with over 6+ years of experience in building dynamic web applications. Expertise in front-end technologies such as Angular, TypeScript, JavaScript, HTML5, and CSS, along with back-end development using PHP. Holds a master's degree in computer science and engineering. Proven track record of managing projects from concept to deployment, delivering user-friendly and high-performance applications.

Skills

- **Programming Languages:** TypeScript, JavaScript, PHP
- **Frontend:** HTML, CSS3, Bootstrap, DevExtreme
- **Frameworks:** Angular, AngularJS, Node.js, React, Laravel
- **Other Skills:** NgRx, RxJS, Jasmine and karma Angular Testing, Git, Docker, Object-Oriented Programming, Adaptable to New Technologies, Strong Work Ethic

---

Professional Experience

Les Systèmes Adda Tech Inc.- Laval, QC
Front End Developer | Feb 2022 - Present

- Developed features for web platforms using Angular (versions 13, 15, and 17) and TypeScript.
- Built RESTful APIs with Node.js for efficient data operations and seamless front-end to database communication.
- Created a powerful customer-facing management system application using ReactJS, React Hooks, React Router, JavaScript, HTML5, CSS3, SASS, and Bootstrap 4.
- Integrated third-party tools, including the Unlayer HTML Email Builder, into Angular applications.
- Employed Agile methodologies for incremental development, ensuring superior application delivery.
- Designed dynamic, cross-browser compatible pages using HTML5, CSS3, and Angular.
- Deployed applications on servers using Docker for consistent and isolated runtime environments.
- Collaborated with backend teams to ensure seamless deployments through CI/CD configuration.
- Participated in regular stand-ups, sprint planning sessions, and retrospectives to identify improvements and align with project goals.
- Proficient in using testing frameworks like Jasmine and karma.
- **Technology Stack:** Angular, TypeScript, JavaScript, React, Node.js, HTML5, CSS, Angular Material, DevExtreme, Basic knowledge of Azure, Swagger

Mehar Soft Technologies Pvt. Ltd. -Chandigarh, India
Software Developer| Jun 2016 - Aug 2020

- Developed Dynamic web applications using PHP with MySQL database backend, utilizing skills in HTML, CSS, JavaScript, jQuery, Bootstrap and AJAX
- Implemented Object-Oriented Programming (OOP) Principles and best Practices in software development to build scalable and maintainable code.
- Worked with the pre-existing code to remove bugs and sanitize the form inputs on front end with JavaScript and PHP.
- Tested web pages across multiple browsers to maintain consistency.
- Conducted analysis of all applications and websites to identify issues and recommend enhancements.
- Identified and fixed bugs pre-deployment, saving time and resources.
- **Technology Stack:** PHP, Ajax, JavaScript, HTML5, CSS, jQuery, GitHub LAMP, (Linux, Apache, MySQL, PHP),

Infowiz Software Solution- Chandigarh, India
Intern | Dec 2015 - May 2016

- Explored new technologies and approaches to streamline processes.
- Developed organizational skills by managing multiple tasks under strict deadlines.
- Participated in workshops and presentations to gain project-related knowledge.
- Conducted research, compiled data, updated spreadsheets, and produced timely reports.
- Enhanced productivity by assisting with project coordination and providing ongoing support.

Education

Diploma - in Web Programming and Internet Technologies | Sep 2020 - Sep 2022
Institut Supérieur D'Informatique (ISI) - Montreal, QC

Master of Technology (MTech.) - in Computer Engineering | May 2015
Punjabi University - Punjab, India
